

WOMEN IN SCIENCE AND ENGINEERING

ottawa chapter

PRESENTS

WISE Pioneers

All are welcome – you just need to RSVP
by April 11, 2014.

WISE Ottawa is hosting together with its partners an evening of learning and inspiration going back to our roots. Professor and Dr. Monique Frize, one of WISE Ottawa's pioneers, will be speaking about the amazing life of Laura Bassi, an esteemed 18th Century Bolognese scientist and professor who completed over 60 theses. Dr. Frize's presentation will be based on her book about Laura Bassi, including research done by Dr. Gabriella Berti-Logan, to whom the book is dedicated. Join us to celebrate a female visionary and how her legacy has helped forge opportunities and choices for all women in science and engineering. Wine and cheese will be served and Dr. Frize's book will also be available for sale.*

Date and Time: April 15, 2014; 6:00 – 8:30 PM

Location: St. Anthony's Banquet Hall, 523 St. Anthony St., Ottawa

RSVP: Please RSVP to ariadni@kymalaw.com

*There is no admission fee. Book price (discounted): \$30 (cash or cheque).
